## *A pawfect trip to Cumbria*

Looking for somewhere to visit with your canine companion? The Lake District, Cumbria, is a dream for dogs (trust us: we've checked!). Fells and mountains to explore, beaches to run on, towns to stroll through and so much more await both you and your four legged friend.

There are plenty of great places to stay, brilliant dog friendly attractions, fantastic eateries, and so much more to discover. You'll be spoilt for choice, but don't worry: we've got you covered with our guide to a *pawfect* trip to the Lake District, Cumbria.

Plus, we've included a helpful guide to **Dog Etiquette** for the countryside, so you can be confident in bringing your pet along in a way that's kind to the local wildlife, farm animals and other visitors.

All things considered, you'd be barking mad to miss out on a *pawsome* time in Cumbria!

# *Dog Etiquette*

## **BE ESPECIALLY VIGILANT AROUND LIVESTOCK**

Be aware it is an offence to allow your pet to bother any livestock. Please keep your dog on a lead and give farm animals plenty of space so they don't feel intimidated. Cows may be more curious, but should they charge towards you, drop your dog's lead and run to safety. Your pet will be able to outrun any danger by themselves.

## **PROTECT OUR BEAUTIFUL WILDLIFE**

To protect the local wildlife but also your pet, it's important that wildlife should not become distressed. Please keep your dog on a lead and respect any official signage restricting access should you come across them.

## **PROTECT AGAINST ANIMAL & INSECT BITES**

Long grass can often be home to insects, parasites and even adders, so please be vigilant. If your pet is bitten by an adder, try not to let them move and consult a vet as soon as possible.

## **PICK UP AFTER YOUR POOCH**

Always ensure you carry sufficient waste bags during your adventures; and that you dispose of any plastic bags in appropriately labelled bins.

## **RESPECT OTHER VISITORS**

As much as we love our four-legged friends, please respect other walkers, cyclists and horse riders by keeping dogs under close control.
